**3 Axis C.N.C. GTAW
Welding Cell**

**SEE IT IN
ACTION** 

■ **Engineering Challenge**

CHALLENGE ▼

Design a 3 Axis high precision motion controlled system that integrates the GTAW weld process seamlessly and provide a user friendly system that anyone can operate.

SOLUTION ▼

Weldlogic Engineering developed and refined a 3-Axis motion controlled system that operates from 1 HMI that enables coordinated movement of up to 3 motions via A.C. Servo driven for the highest degree of accuracy.

The system uses G-code for programming the system that can easily be learned and programs stored for immediate recall.

Contact Weldlogic Tech-Sales to receive a welding system solution for your requirements.

WELDLOGIC USA

2651 Lavery Court
Newbury Park, CA 91320

WELDLOGIC
FORMING & WELDING SOLUTIONS

WELDING SOLUTIONS
FOR ADVANCED
MANUFACTURING

- ▶ Fully Integrated System
- ▶ G-Code Multi-Axis Programming
- ▶ A.C. Servo Motor Precision Motion
- ▶ Available in Laser, GTAW, Plasma or Mig
- ▶ Seam Tracking Available
- ▶ X-Y-Rotary sized to fit requirements
- ▶ Custom Tooling provided upon request
