FOR ADVANCED
MANUFACTURING

A.W.S. - Advanced Welding System
AWS-210, PWL-15-36 Weld Lathe, Arc View & Monitor

Plasma | TIG | Laser | MIG | Sub-Arc

SEE IT IN ACTION

► **The AWS-Lathe Weld Cell**
"Our Work Horse"

Weldlogic has been designing & manufacturing Automatic Welding Lathe Cells for 45 years, from its plant located in California.

Our AWS-Automatic Welding Lathe offers our customers a highly evolved level of programming, repeatability & reliability that enables welding results of the absolute highest quality with the least amount of welding knowledge.

Our AWS-Power supplies offer 1.0-800 amperes of welding current in both A.C. & D.C. polarities to address a broad range of materials from Aluminum to Titanium.

The PWL-15-XX Lathe is designed to offer many options to tailor fit the needs of today's plant automation requirements.

The cell offers Optional , Cold Wire Feeder, Arc Voltage Controller, Oscillation , Dual Torch, Seam Tracker, Multi-Axis, Auto Part Feeder/Ejector, Robotic Part Feeder, Safety Enclosure,

Contact Weldlogic Engineering for a specialized solution for your specific requirements.
